Homework 2020

Seesaw

I write to inform you of the arrangements for homework this session. Due to the successful launch of Seesaw as a platform for Home Learning, we will continue to use this digital platform to upload homework.

Please find attached your child's Home Learning Code with step by step instructions to access their profile. If you currently have access to your child's account there is no need to use the new code. Please keep the code safe as you may need it in the future to add Seesaw to a new device. In the unlikely event you are unable to access your child's account, please contact the school office.

Teachers will upload homework week beginning Monday 24th August 2020. Each teacher will provide clear guidance as to how and when homework should be completed.

We will continue to review what we do in school. We value your views and would greatly appreciate if you could take a few moments to complete the Reconnection Survey below. A digital copy of this letter has been emailed to parents/carers.

Thank you again for your support. By working together, we will ensure our children will continue to flourish.

Best wishes

Cillian Roulston
